Contribution Reflection | Team 8 | Artemii Chirkov

My contributions:

- Completed Part 3 of the assignment, focusing on data visualization and dashboard development using Python and relevant libraries.

- Created clear and interpretable visual outputs that summarize the dataset's main insights, ensuring proper labeling, layout consistency, and effective storytelling through charts.

- Verified data accuracy, organized the notebook sections for clarity, and ensured that results were presented professionally for final submission.

Teammate ratings:

- Kanan Gurbanov: 5/5
- Brandon Moss: 5/5

Feedback sentences:

- Kanan: Kanan did a good job in the first parts of the assignment and connected the file to GitHub.
- Brandon: Brandon completed the Looker part of the assignment.
